

**CHOOSE  
YOUR  
LUXURY**

## **True luxury in full glory**

It is said that luxury is a state of mind. More than the materials that make up the product. More than the label it wears. Certainly more than the price tag. The exquisite refinement of the physical environment is the most essential component of that state of mind. Tharwani Infrastructure has managed to achieve that exclusive formula. Creating that perfect combination of exclusivity and personalization that makes up a home.

Complying with customer aspirations, reading between the timeliness of modernization we have imbedded and portrayed only the exquisite. The project Ritu World is absolute class apart with 39 towers of 1 & 2 BHK and luxury villas. It carries a royal appeal and touch of sheer class and eminence. Located at Badlapur approximately 0.5 Km from railway station, it promises to be the most impeccable of creations coming from the pioneers of innovation in building design.
